Wagyu Steak

Wagyu.....beef is striking because of its wonderful marbling which results in a never-before-experienced succulence that sends the taste buds reeling. The fat in the meat has more monounsaturated fats and melts at room temperature which makes Wagyu beef suitable as part of a lower-cholesterol diet. The high degree of marbling adds an extraordinary depth of flavour which makes Wagyu beef a culinary delicacy. Our Chefs have been well trained in the art of selecting the absolute best cuts and are well versed in the careful slow cooking process to maximize the taste of each cut, this ensures you will enjoy a mouthwatering experience...after all; our reputation is at steak.....
